ARTIFICIAL HATCHING.

How Chickens are Made Without the Ald of the Hen.

There is now on exhibition at the office of the Artificial incubation Company, 344 Pennsylvania avenue, one of the most perfect incubators ever invested, and which will well repay a visit. The incubator is an apparatus about twelve feet long, four high, and three wide. At first sight it looks like an invested, and there wide. At first sight it looks like an ordinary counter, with several rows of drawers and some queer electrical instruments placed on the top, which rather pursies the average spectator. Nearer examination, however, reveals many hidden mysteries, and these mysteries were invisit, and the mysteries where invested as a fixerome. Running 160 gallons of water. The children connected with the Sabhath schools of the First Presbyterian Church enjoyed a very delightful Christmas entertainment Saturday tight. The scholars, constituting both the morning and afternoon schools, which now number upward of four hundred, assembled in the saditorium, where Christmas carols were sung under the leadership of Dr. G. F. Johnston, and Scripture texts were recited. These exercises were of a varied character, and the children, under the energetic direction of their superintendent, Mr. John B. Wright, performed their part with great proficiency. They were very much delighted and interested in hearing a Christmas story, which was written for the occasion by the superintendent, and, as read by Dr. Sanderland, engrossed their ent. and, as read by Dr. Sanderland, engrossed their Christmas Celebrations. was written for the occasion by the superintendout, and, as read by Dr. Sunderland, engrossed their

however, to the children in these exercises was the
invitation to go down stairs to the lecture room.
Experience had taught them that this meant candies and lots of good things, and so they were very
unanimous, and came flocking down with a rush
and clatter that only a delighted crowd of children are capable of. When the doors of the lower
room were opened a fairy scene of beauty burst
upon their delighted gaze. Down through a vista
of spivan green were seen two Christmas trees,
sparkling and glittering with light, while at the
foot were bespect the presents and tokens for the
children. The scene was a very pretty one, and
the children enjoyed the evening very much.

The Colonel."

The play called "The Colonel," which has been so successful in Boston, will be the attraction at Ford's Opera-House this week, the first representation being given at the matine this afternoon. The Boston Journal thus speaks of the piece: "Its purpose is light, as most of the purposes which depend upon caricature are. It is sure to attain success, for it is a comedy of great interest in plot, is well constructed, and sparkles with quips and epigrams. The first act is slow until the advent of the American Colonel of cavalry, but after his appearance there are few dull moments, and the second act, especially, is charmingly bright and amusing. Few lines are wanting for joke or pun, most of them fresh and original. Mr. Eric Bayley and Miss Mindha Bayley, the new comers from London, made a most favorable impression, the former being evidently an actor of unusual ability, and the latter, a sprightly, vivacious actress, with much present accomplishment to her credit and promise of improvement in the future. The production met with strong marks of approbation, and at the end of each act the actors were called before the curtain."

The next move in the Christiancy case will be be taking of testimony before commissions es-ecially appointed for the purpose in New York and Detroit. The counsel have filed their interthe taking of testimony before commissions especially appointed for the purpose in New York and Detroit. The counsel have filed their interrogatories and cross-interrogatories, and a mation to appoint a commissioner to take evidence covering these points will soon be argued in the court. The object of the testimony to be taken in New York is to impeach the testimony of the witness Goodwin and Miss Chamberlain. The latter has not yet signed her deposition, but the counsel for the defense propose to treat it as if it was already signed, and will endeavor to establish the utter falsity of both depositions at Detroit. The commission will take the testimony of Mr. Christiancy's sons in regard to the alieged sets of crueity and ill-treatment to the plantiff while she was a resident there. There will be but little, if any, further evidences taken in this city, and after this testimony is secured the examiner will soon be able to make a report to the court.

Present to a Pastor.

The Christmas sermon of the Rev. S. M. Hartsock. Hamiline Church, corner of Ninth and P streets, dwelt upon the salient features of the mativity of the Saviour and the wonders of its surroundings. Some of his passages were very cloquent, and at times the people were visibly affected. An interesting feature of the services was the asknowledgment by the pastor, Mr. Hartsock, of the presentation of a handsome suit of ciothes from the congregation, with whom be has grown so popular. This was done in a manner of once gratifying and graceful. The choir, which within a few months past has been wonderfully strengthened and improved, exhibited a proficiency that clicited marked approval.

We are indebted to Mr. Alfred Speer for a sample of his celebrated Port Grape Wine, which is recommended by many medical gentlemen as invaluable for all female weakness and general debility.
